A Software Developer that loves UNIX and creating tools.

[About]

Hi I'm Guilherme Rosado, and I'm from Portugal, an avid software developer that spends often a lot of time in front of a laptop because coding has become an addiction. If I'm tired or bored somehow I'll be developing some kind of tool or program, which, interestingly, gives me energy.
Besides liking software, I'm also a vocalist of a neo-soul band and I play ukulele and guitar (I have a song on Spotify). Forgot to mention that I like taking notes of everything, a total fan of zettelkasten.

[About]

[docker] [docker-compose] [css]
[javascript] [typescript] [bash]
[git] [tui] [ci/cd] [nextjs]
[tailwind] [serverless] [netlify]
[pgtap] [vercel] [react] [golang]
[sql] [npm] [webpack] [postcss]
[postgres] [nodejs] [supabase]
[figma] [curl] [linux] [pnpm]
[monorepo] [networking] [tdd] [agile]
[rest] [graphql] [jest] [xstate]

Note: These keywords represent tools, technologies and practices that I use on a daily basis. They should represent what I'm more familiar/comfortable with, even though I might not be an expert in most of them.

[Career]

{2021..Now}
